Year 6
Term 2

Science

Staying Alive

Focussing on human biology, we will explore our main organs; learn about the circulatory system; understand how the heart works and the effect of exercise on our pulse

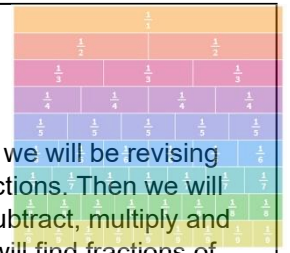

English

Animals on the Move.

In this unit we will explore the migration of animals across the world; the dangers they face; and the distances they travel. Through non-fiction texts we will investigate report writing, contents and index pages, facts and opinion writing.

Maths

Fractions

Throughout this term we will be revising our knowledge of fractions. Then we will be learning to add, subtract, multiply and divide fractions. We will find fractions of amounts and find the whole from a fraction.

French

La Seconde Guerre Mondial.

We will explore new vocabulary and recognise English words to help to decode unknown language. Understand the key facts of history from WW2 when described in French. Say and write in French the key countries and languages involved in WW2. Write a letter in French home explaining what life is like as an evacuee living in the countryside.

Guided Reading

Non-fiction texts/fiction texts

Using our English topic of animal migration we will read a range of quality texts that focus around the eruption and the science learned about volcanoes.

RE

Incarnation

Continue to explore Christianity and explore the question 'Was Jesus the Messiah?'

Music

Jazz

We will explore a range of jazz musicians: Jasper Lundfaard, Duke Ellington and Ian Gray. We will appraise different tracks and begin to accompany some jazz tracks.

Computing

Coding

Revising our knowledge of coding we will further develop our skills to create programmes and games using Purple Mash.

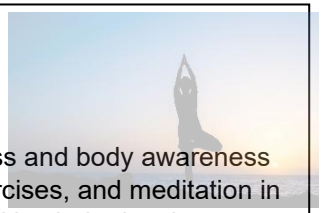

Topic

The Shang Dynasty

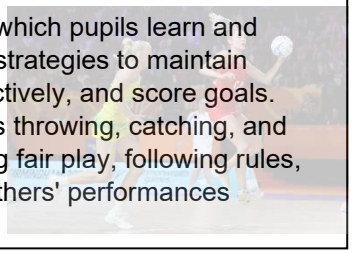

Detailed research into the ancient civilisation of The Shang Dynasty. Focus on their legacy, everyday lives, significant figures, language and warfare.

PE

Mindful Movement
In this unit, pupils learn mindfulness and body awareness by exploring poses, breathing exercises, and meditation in a fun and engaging way. The activities help develop flexibility, strength, technique, control, and balance, while encouraging teamwork, creativity, and leadership.

Netball
Netball is an invasion game in which pupils learn and apply attacking and defending strategies to maintain possession, move the ball effectively, and score goals. They develop key skills such as throwing, catching, and movement, while demonstrating fair play, following rules, and evaluating their own and others' performances

PSHE

Celebrating Differences

We will recognise how everybody is different and how we can celebrate these differences.

Art

Linking to our Shang Dynasty topic, we will explore the imagery and beliefs that appear in artefacts. We will design and create taotie masks in clay.
